Ramona Carlow
President
Connecticut

December 18, 2008

Dear Fred,

I was excited to learn about the newly established Greater New England Minority Supplier Development Council. Everyone will benefit from the merger between the Connecticut and New England Councils: AT&T, other Council members and MBEs, alike. Council members will be able to access an expanded pool of certified minority suppliers and more certified minority suppliers will be able to access AT&T's Supplier Diversity Program. Congratulations on your decision to assume the leadership of this new Council.

Over the years, working with you and the Connecticut Council, AT&T has been able to enrich our supplier diversity program and tap into different backgrounds, perspectives and experiences, as well as access high quality goods and services from certified minority- and women-owned businesses. I fully anticipate that the expanded Council will enable AT&T to further enrich our program, reach more MBEs, expand our reach into multicultural markets and better serve the communities in which we live and work.

At AT&T, we're proud of our long history of inclusion and our continued commitment to supplier diversity. I look forward to working with the new Greater New England Minority Supplier Development Council.

My best wishes for your continued success,

Sincerely,

A handwritten signature in cursive script that reads "Ramona Carlow".
